**Welcome to our Hillside Model UN!**

Each country has been assigned to a committee. Each committee is listed in the side menu. Find your committee and post your position paper on the page. If you have any comments to make about your position or someone else's position, use the discussion thread to post your thoughts. Feel free to comment on papers even if the people are not in your own class. The idea behind this space is that we are all working together on this. Keep your comments appropriate and helpful. It is a workspace and we can all see it!
